

Your Key To Activating The Clarity Pal Phone

There are two types of cell phones: Locked (CDMA) and Unlocked (GSM).

In order to activate and use the Clarity Pal, you will need to sign up with a carrier that uses the GSM network.

🔑 CHOOSE AN ACTIVATION OPTION: 🔑

- A. *Independent* – Buy a plan with the GSM service provider of your choice (Example: AT&T or T-Mobile).
- B. *Join The Family* – Have a family member add you to an existing “family plan” for approximately \$9.00 (actual price depends on service provider).
- C. *Pay As You Go* – Buy a SIM card from the service provider of your choice and then buy prepaid minutes online or at a retailer such as Wal-Mart or RadioShack.

Puretalk USA offers nationwide cell phone service with no contract or activation fee. Plans are available as low as \$10.00 for 130 minutes. For details visit <http://www.puretalkusa.com/mobile-flex-plan.php>
